

```
import java.util.Scanner;
public class PrintAsciivalue
{
    public static void main(String args[])
    {
        System.out.print("Enter a character: ");
        Scanner sc = new Scanner(System.in);
        char ch = sc.next().charAt(0);
        int asciiValue = ch;
        System.out.println("ASCII value of " +ch+ " is: "+asciiValue);
    }
}
```
